Average Review Scores

Monthly Sales (Jan 2017 - Aug 2018)

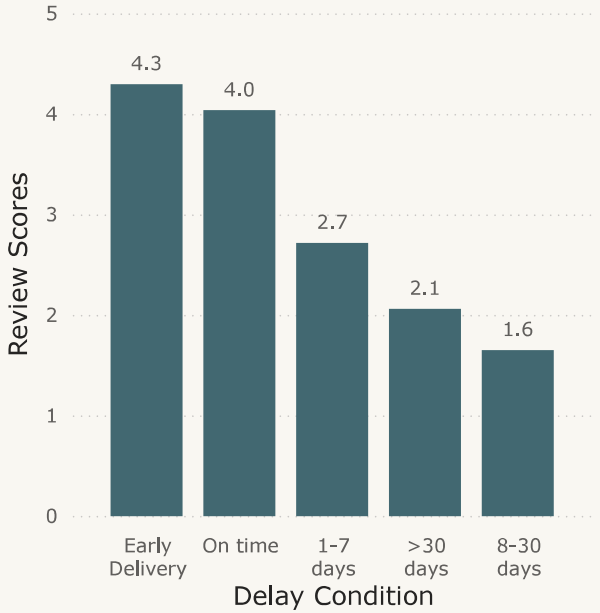

Sales rise gradually over the course of 2 years and the peak happens on November 2017 (probably due to end-of-month promotions).

Top 10 Categories by Revenue

Top 3 categories make ~26% of revenue; the largest is only 9.3%

Average Review Score by Delivery Delay

Review Scores decrease by delay time except for more than 30 days deliveries. 1–7 days late already drops the score from ~4 to 2.7. (The >30 days group has only 328 orders
